

# HETERONOMOUS

*Meaning: HETERONOMOUS: governed by external rules or laws rather than by internal principles or self-determination.*

1. The concept of heteronomous morality suggests that individuals conform to external rules rather than internal principles.
2. In a heteronomous society, laws and regulations are often imposed by those in power rather than emerging from the will of the people.
3. Philosophers debate the implications of living a heteronomous life versus one guided by personal autonomy and self-determination.
4. Many argue that education should promote autonomy instead of fostering a heteronomous mindset that relies on authority figures for guidance.
5. The heteronomous nature of certain cultures can lead to a lack of personal agency and critical thinking among their members.
