

HIRUNDO

Meaning: Hirundo refers to a genus of birds commonly known as swallows, known for their agile flight and association with good fortune and the onset of spring.

1. The hirundo is often spotted swooping gracefully through the air in search of insects.
2. In many cultures, the hirundo symbolizes good luck and the arrival of spring.
3. Watching a hirundo build its nest under eaves is a delightful experience for many homeowners.
4. The hirundo migrates thousands of miles each year, showcasing its incredible endurance.
5. Ornithologists have long studied the behavior of the hirundo to understand its migratory patterns.
