

HIVER

Meaning: HIVER (noun): A season characterized by cold weather, typically associated with winter and often involving snow and dormancy in animals.

1. The air turned crisp as the season of hiver approached, bringing with it the promise of snow.
2. During the hiver, many animals enter a state of dormancy to survive the cold months ahead.
3. The landscape transformed under a blanket of white, revealing the beauty of hiver's stillness.
4. Festivities in the region are vibrant, celebrating traditions unique to the colder hiver months.
5. As the days grew shorter, the cozy evenings of hiver invited families to gather by the fire.
