

HOARFROST

Meaning: Hoarfrost is a white or translucent crystalline deposit of frozen water vapor that forms on cold surfaces, creating a sparkling appearance in cold weather.

1. The early morning air was crisp, and the fields sparkled with hoarfrost that glittered in the sunlight.
2. As I walked through the forest, the hoarfrost clung to the branches, creating a breathtaking winter wonderland.
3. Hoarfrost formed delicate patterns on the windowpane, making it feel like a scene from a fairy tale.
4. Farmers often rise before dawn to check on their crops, especially when hoarfrost blankets the ground.
5. The beauty of hoarfrost is fleeting, disappearing as the sun rises higher in the sky.
