

# HOMOPHONE

*Meaning: A homophone is a word that is pronounced the same as another word but differs in meaning and often in spelling.*

1. A homophone for "flower" is "flour," as they sound the same but have different meanings.
2. In English, "two," "to," and "too" are classic examples of homophones that can confuse learners.
3. The teacher explained that understanding homophones is essential for mastering English pronunciation.
4. During the quiz, we had to identify homophones in sentences to test our knowledge of the language.
5. Many jokes rely on homophones to create puns that play with the sounds of words.
