

HULLER

Meaning: HULLER: A machine or device used to remove the outer husk or shell from grains, particularly rice.

1. The huller's efficiency greatly improved the processing time of the rice harvest.
2. After the huller's success, the farmers celebrated with a feast in the village square.
3. Using the new hullers, the factory doubled its output in a matter of weeks.
4. The huller's design allows for easy cleaning and maintenance, making it very user-friendly.
5. As the huller's blades spun, the sound of grains being hulled filled the air.
