

IBIDEM

Meaning: Ibidem is a Latin term used in citations to indicate that the information or reference is the same as the one previously mentioned.

1. The research paper cited several studies, including one by Smith in 2020, and then referred to *ibidem* for the subsequent findings.
2. In his dissertation, Johnson explained the theory thoroughly, referencing *ibidem* for the essential previous arguments.
3. The legal document referenced a previous case for the ruling, with *ibidem* indicating the same source was used multiple times.
4. The author meticulously noted each source in her bibliography, using *ibidem* to streamline her citations from the same work.
5. During the lecture, the professor emphasized the importance of properly using *ibidem* to avoid redundancy in academic writing.
