

ILLIBERALIZE

Meaning: To illiberalize means to reduce or undermine liberal freedoms, rights, or democratic principles within a society.

1. The government's recent policies threaten to illiberalize many aspects of civil society.
2. Activists fear that the new legislation will illiberalize freedoms that have been hard-won over the decades.
3. Scholars warn that economic sanctions could illiberalize the political climate even further.
4. Public opinion seems to support measures that illiberalize certain rights for the sake of national security.
5. Critics argue that the administration's actions are designed to illiberalize the media landscape, stifling dissent.
