

IMMATERIALISM

Meaning: Immaterialism is a philosophical doctrine asserting that only immaterial entities, such as minds and ideas, are fundamentally real, rejecting the existence of physical objects as the basis of reality.

1. Immaterialism challenges the notion that physical objects are the foundation of reality.
2. The philosophy of immaterialism argues that only minds and ideas are truly real.
3. In discussions about existence, immaterialism presents a compelling alternative to materialism.
4. Many artists and thinkers have drawn inspiration from the principles of immaterialism.
5. Immaterialism prompts us to reconsider the value we place on tangible possessions.
