

IMPERCEPTIBILITY

Meaning: Imperceptibility refers to the quality of being undetectable or not easily perceived, often due to subtlety or minute scale.

1. The imperceptibility of the changes in her mood made it difficult for her friends to offer support.
2. Scientists marveled at the imperceptibility of the tiny particles that influenced the experiment's outcome.
3. The artist captured the imperceptibility of light and shadow, creating a mesmerizing effect on the canvas.
4. His talent lay in the imperceptibility of his transitions between different musical styles.
5. In the dim light, the imperceptibility of the dust motes dancing in the air added an ethereal quality to the room.
