

IMPRESSIONIST

Meaning: Impressionist refers to an artist or style associated with the late 19th-century movement that emphasizes the effects of light and color, often capturing fleeting moments in everyday life through loose brushwork and vibrant palettes.

1. The Impressionist movement revolutionized the way artists perceived and captured light.
2. Monet's paintings are often considered the quintessential examples of Impressionist artistry.
3. Many art enthusiasts flock to galleries to admire the vibrant colors and brush strokes characteristic of Impressionist works.
4. Impressionist painters often worked en plein air to capture the changing effects of natural light.
5. The influence of Impressionist techniques can be seen in many contemporary art forms today.
