

INCURVATION

Meaning: Incurvation refers to the act or state of curving inward or bending, often creating a graceful or aesthetically pleasing shape.

1. The incurvation of the tree branches created a graceful arch over the path.
2. Incurvation in the design of the building allowed for more natural light to enter the interior.
3. The artist's use of incurvation in her sculptures added a dynamic quality that captivated viewers.
4. His posture exhibited an incurvation of the spine that suggested years of poor sitting habits.
5. The incurvation of the landscape around the lake provided stunning views from every angle.
