

INDIVIDUALIZATION

Meaning: Individualization is the process of tailoring approaches or methods to accommodate the unique characteristics or needs of an individual.

1. Individualization in education allows teachers to tailor their methods to meet the unique needs of each student.
2. The healthcare industry is increasingly focusing on individualization to provide personalized treatment plans for patients.
3. With the rise of technology, individualization in marketing has become essential for targeting specific consumer preferences.
4. Effective individualization can enhance employee satisfaction by recognizing the diverse skills and interests within a workforce.
5. The concept of individualization emphasizes the importance of catering to personal differences rather than applying a one-size-fits-all approach.
