

INDUSTRIALISM

Meaning: Industrialism is an economic and social system characterized by the transition from agrarian economies to ones dominated by manufacturing and industrial production.

1. Industrialism transformed societies by shifting the focus from agriculture to manufacturing and production.
2. The rise of industrialism in the 19th century led to significant changes in labor dynamics and urbanization.
3. Critics of industrialism argue that it has contributed to environmental degradation and social inequality.
4. As industrialism spread, it created new economic opportunities while also challenging traditional lifestyles.
5. The impact of industrialism can still be felt today, influencing technology, culture, and economic practices worldwide.
