

INFRAGRANT

Meaning: Infragrant: having little to no scent or fragrance.

1. The infragrant nature of the flower made it less appealing to pollinators.
2. Despite its vibrant colors, the plant was surprisingly infragrant and failed to draw attention.
3. Infragrant scents can sometimes indicate a lack of nectar, discouraging bees from visiting.
4. The artist chose to incorporate infragrant elements in her installation to evoke a sense of tranquility.
5. Infragrant varieties of orchids are often overlooked in favor of their more aromatic counterparts.
