

INSICCATION

Meaning: Insiccation refers to the process of drying out or the state of being dried, particularly in relation to soil or water bodies.

1. The insiccation of the soil during the summer months made it difficult for farmers to grow crops.
2. After months of insiccation, the once vibrant riverbed had turned into a dry expanse of cracked earth.
3. The insiccation process in the lab helped preserve the specimens for future research.
4. Due to the insiccation caused by the prolonged drought, many plants in the region have started to wither.
5. Scientists studied the insiccation effects on various materials to improve their durability in arid environments.
