# JARGONIST

*Meaning: A jargonist is a person who uses specialized language or terminology specific to a particular field or profession, often making communication less accessible to those outside that field.*

1. The jargonist struggled to explain complex concepts in simpler terms for the audience.
2. Her tendency to use specialized language made her a true jargonist in the field of medicine.
3. Critics often accused the jargonist of alienating those who were not well-versed in technical language.
4. As a jargonist, he found it challenging to communicate with clients outside his industry.
5. The jargonist's presentation was filled with terminology that left many attendees confused.
