

KAPOK

Meaning: Kapok is a lightweight, buoyant fiber obtained from the seed pods of the kapok tree, commonly used for filling and insulation in products like pillows.

1. The soft kapok fibers were used to fill the pillows, providing a comfortable night's sleep.
2. In traditional crafts, kapok is often favored for its lightweight and buoyant properties.
3. The kapok tree, native to tropical regions, boasts a striking silhouette against the sky.
4. During the rainy season, the kapok pods burst open, releasing fluffy seeds into the wind.
5. Eco-friendly artisans are increasingly incorporating kapok into their products as a sustainable alternative to synthetic materials.
