

KEELING

Meaning: Keeling refers to the action of a ship or boat leaning or tilting to one side, typically due to wind or waves.

1. The ship was keeling heavily to one side as the storm intensified.
2. He watched in awe as the sailor expertly balanced the boat, keeling just enough to catch the wind.
3. Her laughter echoed in the air, keeling the tension that had built up during the meeting.
4. The old wooden vessel was keeling under the weight of the cargo, threatening to capsize.
5. As the sun set, the horizon appeared to be keeling, creating a stunning visual effect.
