

KEEVER

Meaning: A keever is a type of large, often rectangular container or trough used for holding soil or compost, typically in agricultural or gardening contexts.

1. The keever was filled with rich, dark soil that promised a bountiful harvest.
2. As the sun set, the shadows danced across the old keever, revealing its weathered texture.
3. He carefully inspected the keever, searching for any signs of pests that might harm the crops.
4. In the midst of the field, the keever stood as a testament to generations of farming traditions.
5. The farmer smiled with satisfaction as he watched the seeds sprout in the newly prepared keever.
