

# KRAKEN

*Meaning: Kraken: a mythical sea monster, often depicted as a giant octopus or squid, believed to dwell off the coasts of Norway and Greenland and reputed to attack ships.*

1. The legend of the Kraken has haunted sailors for centuries.
2. In the depths of the ocean, the Kraken lurks, waiting to emerge.
3. Some believe that the Kraken was inspired by sightings of giant squids.
4. In popular culture, the Kraken has been featured in numerous films and books.
5. Mythical stories often depict the Kraken as a fearsome beast that drags ships underwater.
