

LABURNIC

Meaning: Laburnic refers to a type of tree or plant belonging to the genus Laburnum, known for its bright yellow flowers and ornamental qualities.

1. The garden was filled with the bright yellow blooms of laburnic, attracting bees and butterflies.
2. As we walked through the park, the laburnic trees swayed gently in the breeze, their petals falling like confetti.
3. A laburnic branch snapped in the wind, scattering its delicate flowers across the ground.
4. The striking appearance of laburnic in full bloom made it a popular choice for landscape design.
5. Despite its beauty, the laburnic plant is toxic if ingested, so caution is advised in areas where children play.
