

LAND-POOR

Meaning: Land-poor refers to a situation where an individual or entity possesses property or assets, such as a house, but lacks sufficient land or resources to utilize or manage effectively, often leading to financial strain.

1. Many farmers find themselves land-poor, struggling to make ends meet with limited arable property.
2. The concept of being land-poor often affects those who inherit large houses but lack sufficient land around them.
3. In urban areas, individuals can be land-poor if they own expensive real estate but have little space for gardens or outdoor activities.
4. Despite owning multiple properties, the couple felt land-poor as their investments left them with minimal usable land.
5. To address the issue of being land-poor, local governments are exploring policies to increase access to communal green spaces.
