

LAPBOARD

Meaning: A lapboard is a flat, typically wooden board used in construction or crafting, often featuring a design that allows for overlapping edges for added strength and aesthetic appeal.

1. The carpenter chose a sturdy lapboard for the outdoor project to ensure durability against the elements.
2. With its unique design, the lapboard added a rustic charm to the newly renovated cabin.
3. He carefully measured the lapboard before cutting it to fit the uneven wall.
4. The lapboard's overlapping pattern not only provided structural integrity but also enhanced the aesthetic appeal.
5. After a long day of work, he admired the newly installed lapboard that transformed the space.
