

LATESCENT

Meaning: LATESCENT: (adjective) referring to a state of being dormant or inactive, especially in relation to growth or development, that precedes a period of blooming or flourishing.

1. The latent flower buds began to bloom just as spring approached.
2. In the quiet forest, the latent growth of ferns hinted at the arrival of warmer days.
3. The latent phase of the project required careful monitoring to ensure everything was on track.
4. As the latent ideas took shape, the team realized they were onto something innovative.
5. He admired the latent beauty of the sunset, which seemed to linger just a moment longer.
