

LEAFSTALK

Meaning: Leafstalk: the stem or stalk that supports a leaf and connects it to the main plant.

1. The leafstalk of the plant was remarkably long, allowing the leaves to reach toward the sunlight.
2. During the experiment, we measured the diameter of the leafstalk to determine the plant's health.
3. In autumn, the vibrant colors of the leafstalk contrasted beautifully with the surrounding greenery.
4. The gardener carefully pruned the leafstalk to promote better air circulation among the leaves.
5. A strong wind snapped the fragile leafstalk, scattering the leaves across the garden floor.
