

LEGITIMATION

Meaning: Legitimation is the process of formally recognizing a child, often by the father, which grants the child legal rights and social status, particularly in cases of birth out of wedlock.

1. The process of legitimation can significantly impact the social status of a child born out of wedlock.
2. In some cultures, legitimation is achieved through formal recognition by the father.
3. Legal reforms aimed at the legitimation of same-sex partnerships have gained momentum in recent years.
4. The legitimation of their claims was supported by extensive documentation and witness testimonies.
5. Many advocates argue that legitimation should be accessible to all children, regardless of their parents' marital status.
