

LEVERET

Meaning: A leveret is a young hare, especially one that is less than a few months old.

1. The leveret darted across the field, its long legs propelling it swiftly away from danger.
2. In early spring, the leveret can often be seen nestled among the tall grass, blending seamlessly into its surroundings.
3. Observing a leveret in the wild is a rare treat for nature enthusiasts, as they are more elusive than their adult counterparts.
4. The farmer noticed the leveret resting near the edge of the meadow, its large ears twitching at the slightest sound.
5. During the wildlife documentary, the narrator explained the differences between a leveret and a fully grown hare.
