

LICHENED

Meaning: Lichened refers to being covered or adorned with lichen, a symbiotic organism typically found on surfaces like stones and trees, often giving them a weathered look.

1. The ancient stones were lichened, giving them a weathered and mystical appearance.
2. In the damp forest, the trees were covered in lichened patches that thrived in the shade.
3. As we hiked through the mountains, we marveled at the lichened rocks that clung to the cliffs.
4. The old wall was lichened, creating a vibrant tapestry of greens and grays that fascinated the botanist.
5. A lichened surface can indicate a healthy ecosystem, as these organisms often thrive in clean air.
