

LINEATION

Meaning: Lineation refers to the arrangement or delineation of lines or features, often highlighting patterns or structures in contexts such as poetry or geology.

1. The lineation of the poem emphasizes its rhythmic qualities.
2. In geology, the lineation of rock layers can reveal important historical information.
3. The artist's careful lineation of the landscape added depth and perspective to the painting.
4. Understanding the lineation of text can enhance the readability of complex documents.
5. The lineation in the manuscript suggested a deliberate choice by the author to create pauses.
