

LIQUIDAMBER

Meaning: Liquidamber refers to a genus of deciduous trees, commonly known as sweetgum, characterized by star-shaped leaves that display vibrant colors in autumn.

1. The liquidamber tree is known for its stunning fall foliage.
2. In the park, the liquidamber leaves crunched underfoot, creating a beautiful carpet of color.
3. Artists often use liquidamber wood for its rich grain and durability in furniture making.
4. The sweet gum, commonly referred to as liquidamber, produces spiky seed pods that can be quite a nuisance.
5. During autumn, the vibrant hues of the liquidamber make it a favorite among photographers.
