LIQUIDATOR

Meaning: A liquidator is a person or entity appointed to sell off a company's assets and settle its debts, typically during bankruptcy or liquidation proceedings.

1. The liquidator was tasked with selling off the company's remaining assets.

2. After the bankruptcy was declared, the liquidator began the process of winding down operations.

3. Shareholders were anxious to see how much the liquidator could recover from the sale of properties.

4. The liquidator's report detailed the financial state of the business before it was dissolved.

5. As a liquidator, she had to navigate complex legal and financial challenges to ensure fairness.
