

# LISTEL

*Meaning: A listel is a narrow decorative strip or band used in architecture and design, often to accentuate or border elements such as tile work or mosaics.*

1. The architect chose a beautiful listel to accentuate the tile work in the bathroom.
2. In the intricate mosaic, the listel served as a delicate border between the vibrant colors.
3. She admired how the soft sheen of the listel caught the light, adding depth to the design.
4. The listel, made of polished stone, provided a striking contrast to the matte finish of the surrounding tiles.
5. Craftsmen often use listels to create a sense of continuity in decorative installations.
