

LITHOPHANE

Meaning: Lithophane is a thin, translucent porcelain or ceramic artwork that reveals detailed images or scenes when backlit.

1. The museum displayed a stunning collection of lithophanes that showcased intricate scenes when illuminated.
2. She was fascinated by the way the light passed through the lithophane, revealing details hidden in plain sight.
3. Crafting a lithophane requires a delicate balance of thickness and texture to achieve the desired effects.
4. As the sun set, the lithophane on the windowsill cast beautiful shadows across the room.
5. Collectors often seek rare lithophanes, as they can be both beautiful artworks and historical artifacts.
