

LOADER

Meaning: Loader: a machine or vehicle designed for loading materials, such as dirt, sand, or gravel, onto trucks or other transport vehicles.

1. The loader efficiently transported the heavy materials to the construction site.
2. She watched as the loader carefully filled the truck with sand and gravel.
3. After the rain, the loader struggled to navigate through the muddy terrain.
4. The operator expertly maneuvered the loader around obstacles on the job site.
5. Using a loader made the process of clearing debris significantly faster.
