LOGOMACHIST

Meaning: A logomachist is a person who engages in disputes over words and their meanings rather than addressing the actual issues at hand.

1. The debate quickly turned into a logomachist struggle, with each participant focusing on the semantics rather than the substance of the issue.

2. In their logomachist exchanges, they lost sight of the original purpose of the discussion, becoming more concerned with winning arguments over finding solutions.

3. Her reputation as a logomachist preceded her, as she often dissected every word in a conversation to seek hidden meanings.

4. The logomachist approach to the project caused delays, as team members engaged in endless discussions about terminology rather than executing their plans.

5. He prided himself on being a logomachist, relishing the thrill of unraveling complex arguments with precise language and meticulous reasoning.
