

LUMINATION

Meaning: Lumination refers to the illumination or light emitted or reflected in a particular space, often creating a visually striking or atmospheric effect.

1. The lumination of the city skyline at night took my breath away.
2. As the sun set, a soft lumination filled the room, creating a warm and inviting atmosphere.
3. The artist aimed to capture the lumination of dawn in her latest painting.
4. We marveled at the lumination of the stars as we lay on the grass, lost in thought.
5. Her smile had a unique lumination that brightened even the darkest days.
