

LUNISOLAR

Meaning: Lunisolar refers to a system or calendar that is based on both the phases of the moon and the cycles of the sun.

1. The lunisolar calendar combines both lunar phases and solar cycles to regulate its months and years.
2. Many ancient cultures relied on a lunisolar system to determine the timing of agricultural activities.
3. The Jewish calendar is a prime example of a lunisolar calendar, incorporating both lunar months and solar years.
4. To accurately track the seasons, some modern calendars also use lunisolar adjustments.
5. Astronomers study lunisolar phenomena to understand the gravitational effects of the moon on the Earth.
