

# MACRODOME

*Meaning: Macrodome: a large, dome-shaped structure, often made of glass, designed to allow natural light and views of the sky while serving as a prominent architectural feature.*

1. The architect proposed a stunning design featuring a macrodome that would serve as the centerpiece of the new cultural center.
2. Inside the macrodome, visitors were treated to a breathtaking view of the sky through its expansive glass panels.
3. The macrodome's unique structure allowed for optimal acoustics during the concert, enhancing the audience's experience.
4. Engineers faced several challenges while constructing the macrodome, but their innovative solutions led to impressive results.
5. As the sun set, the macrodome illuminated the surrounding area, creating a magical atmosphere for the evening event.
