MAGISTRATE

Meaning: A magistrate is a judicial officer who presides over court proceedings, often responsible for administering justice and making legal decisions.

1. The magistrate presided over the court with authority and impartiality.
2. After reviewing the evidence, the magistrate decided to grant bail to the defendant.
3. In small towns, the local magistrate often handles minor disputes and traffic violations.
4. The magistrate's ruling was met with mixed reactions from the community.
5. She appeared before the magistrate to contest the charges against her.
