

MAMMONIZATION

Meaning: Mammonization refers to the process of prioritizing material wealth and monetary values over ethical, social, or artistic considerations.

1. The mammonization of society has led to a disturbing prioritization of wealth over well-being.
2. Critics argue that the mammonization of art has diminished its value as a medium for social commentary.
3. In a world increasingly focused on mammonization, the true essence of community seems to be fading.
4. The mammonization of education raises concerns about the accessibility of knowledge for those without financial means.
5. Many believe that resisting the tide of mammonization is essential for preserving ethical and moral values in business.
