

MANROPE

Meaning: Manrope: a rope or line used for safety, typically on a ship, allowing crew members to secure themselves or maintain balance in rough conditions.

1. The sailor secured the manrope to ensure the safety of his crew while navigating the rough seas.
2. During the storm, the captain instructed everyone to grab the manrope to prevent being swept overboard.
3. She expertly tied the manrope to the mast, making it easier for the team to climb the rigging.
4. The manrope dangled over the side of the ship, creating a lifeline for anyone who might fall.
5. As the boat rocked, he held tightly to the manrope, feeling more secure amidst the turbulent waters.
