

MARCESCIBLE

Meaning: MARCESCIBLE (adjective): capable of withering or decaying but not yet fallen, especially referring to leaves or foliage that remain attached to a plant despite dying.

1. The marcescible leaves clung to the tree, showing the last signs of life before winter.
2. In the damp forest, the marcescible foliage added an intriguing layer to the ground cover.
3. Scientists studied the marcescible plants to understand their unique adaptations to harsh climates.
4. The artist used marcescible materials in her sculpture to symbolize the passage of time.
5. With the arrival of spring, the marcescible remnants of autumn slowly decomposed into the earth.
