

MARGINALIZED

Meaning: Marginalized refers to individuals or groups that are pushed to the edge of society and have limited access to resources, rights, or opportunities, often resulting in their voices being overlooked or excluded.

1. Many marginalized communities struggle to have their voices heard in political discussions.
2. The documentary shed light on the lives of marginalized individuals living in urban areas.
3. Efforts to empower marginalized groups often face significant societal resistance.
4. Programs aimed at education and employment can help uplift marginalized populations.
5. Art can be a powerful tool for expression among those who feel marginalized in society.
