

MARLPIT

Meaning: Marlpit: a pit or depression in the ground where marl, a soil rich in clay and lime, is extracted or found, often used for gardening or agriculture.

1. The old marlpit in the field was filled with rich, dark soil perfect for gardening.
2. After heavy rain, the marlpit overflowed, creating a small pond that attracted various birds.
3. During the excavation for the new building, they discovered remnants of ancient pottery in the marlpit.
4. Local farmers often used the nutrient-rich clay from the marlpit to improve their crop yields.
5. The children enjoyed playing near the marlpit, where they often found interesting stones and fossils.
