

MEDIATION

Meaning: Mediation is a process in which a neutral third party facilitates negotiation and communication between disputing parties to help them reach a mutually acceptable agreement.

1. Mediation can often resolve disputes more amicably than a court trial.
2. The couple decided to pursue mediation to avoid the stress of a lengthy divorce process.
3. Her role as a mediator was crucial in facilitating communication between the conflicting parties.
4. In many cases, mediation can lead to solutions that satisfy both sides.
5. The community organized a mediation session to address the ongoing neighborhood conflict.
