

MERGER

Meaning: A merger is the combination of two or more companies into a single entity, often to enhance competitiveness and market presence.

1. The merger between the two tech giants created a powerhouse in the industry.
2. After months of negotiations, the merger was finally approved by the regulatory authorities.
3. Employees were anxious about the merger and its potential impact on their jobs.
4. Experts are predicting that the merger will lead to significant cost savings for both companies.
5. The merger not only expanded their market share but also diversified their product offerings.
