

MISTRAL

Meaning: MISTRAL: A strong, cold northwesterly wind that blows down the Rhône valley in southern France, often associated with clear skies and dry weather.

1. The mistral winds swept through the valleys, bringing a refreshing chill to the summer heat.
2. Sailors often welcome the mistral, as it creates perfect conditions for racing on the open sea.
3. In Provence, the mistral is a well-known phenomenon that can last for several days and impact daily life.
4. Artists have long been inspired by the stark beauty of the landscape shaped by the mistral's relentless gusts.
5. The sudden onset of the mistral caught the outdoor market vendors off guard, scattering their goods across the square.
