MIZZENMAST

Meaning: Mizzenmast: the third mast from the bow on a ship, typically located behind the mainmast and often used for additional sails and stability.

1. The sailor climbed the mizzenmast to take a better look at the approaching storm.
2. With a strong gust of wind, the mizzenmast creaked ominously under the strain.
3. The ship's design featured a tall mizzenmast that helped improve its stability while sailing.
4. As the sun set, the silhouette of the mizzenmast stood stark against the colorful sky.
5. He skillfully maneuvered the ropes attached to the mizzenmast, adjusting the sails for optimal performance.
