

MOLINISM

Meaning: Molinism is a theological doctrine that reconciles divine sovereignty with human free will by positing that God has middle knowledge of all possible outcomes of human choices.

1. Molinism offers a nuanced perspective on the relationship between divine sovereignty and human free will.
2. Philosophers of religion often engage with Molinism when discussing predestination and grace.
3. The principles of Molinism challenge traditional views by suggesting that God's foreknowledge includes all possible human choices.
4. Many theologians appreciate Molinism for its attempt to harmonize faith with reason in matters of free will.
5. In debates about free will, Molinism is often contrasted with Calvinism and Arminianism.
